## INSTRUCTIONS TO COMPETITORS – ACCESS TO PADDOCKS

Dear Rider,

we are asking for your cooperation on few but **essential rules**, in order to run our competition in the safest way, both for you and for our staff, and also to protect the small community of Pieve Santo Stefano. Please note that it shall not be possible to reserve paddock areas. Paddocks will be located in three clearly marked areas according to bikes' categories (Modern, Vintage, Climber). You are asked to stay in the paddock area assigned, even if this means (in some cases) being less close to the start line as it was in the past years. We shall do our best to make the race logistics as smooth as possible and to guarantee your safety. Please read carefully these instructions and observe them.

Thank you and see you in Pieve!
